About the Pensions Management Institute (PMI)

Founded in 1976, the Pensions Management Institute (PMI) is the UK's largest and most recognisable professional body for employee benefit and retirement savings professionals, supporting over 6,500 members.

PMI's members, represented throughout the UK, are responsible for managing and advising some of the largest institutions in the world accounting for £1.3 trillion invested in pensions. We promote excellence through a range of services for the benefit of members, the wider economy and with over six million now saving as a result of automatic enrolment, society as a whole.

The purpose of the Institute is "To set and promote standards of excellence and lifelong learning for employee benefits and retirement savings professionals and trustees through qualifications, membership and ongoing support services".

To achieve this, the PMI:

- Promotes and embeds professional standards, setting the benchmarks for best practice in the employee benefits and retirement savings industry
- Produces qualifications that have a reputation for excellence and ensure that employee benefits and retirement savings professionals, whether they are scheme managers, consultants, administrators or trustees, are educated to the very highest standards and the latest legislation
- Provides continued lifelong learning designed to strengthen the knowledge and skills of employee benefit and retirement savings practitioners in performing to the best of their ability
- Plays a pivotal role shaping the industry, working with government and collaborating with other bodies on research and thought leadership on key issues
- Presents an annual conference and a wide range of technical seminars from entry-level to those for highly experienced professionals
- Provides industry-leading insight, including PMI News, PMI TV, newsletters and blogs to keep practitioners abreast of the very latest developments in a rapidly changing industry
- Proactively has a voice in mainstream and social media with a presence on Twitter and LinkedIn

PMI Qualifications

The PMI is the UK's leading professional body for those working in the field of employee benefits and retirement savings. It supports and develops the experts who are responsible for running the UK's pensions industry and is acknowledged as the body for establishing, maintaining and improving professional standards in every area of pension scheme management, consultancy and trusteeship.

PMI qualifications are recognised for both their depth and their standing within the industry. If you choose a single unit, standalone qualification, or a multi-unit qualification over a number of years, it is recognised by the Pensions Industry as having the depth and rigour to demonstrate the knowledge and expertise of those taking them.

Syllabuses

Each syllabus area is presented in a form which is intended to give an indication of the depth and breadth of knowledge which is required. Each syllabus area is divided into sections with an initial statement, or learning outcome, indicating what is expected of learners. These learning outcomes are expressed through command verbs relevant to the level of study undertaken.

Command verbs themselves are broken down into those that are knowledge driven and those that require application. For all PMI assessments, your command verbs will be mainly made of the following (this list is just a guide):

Knowledge (up to Level 4) (Core Units)

Command Verb	Explanation
Define	State or describe the nature or scope of something
Describe	Express, fully and clearly, the details/facts of. (e.g. "Describe the benefits payable under a term assurance policy".)
Draw	Produce a representation of...a diagram, graph, chart etc. (e.g. "Draw a diagram to illustrate the profit-maximising price".)
Identify	Point out or choose the right one or give a list of the main features
Label	Attach a name to unidentified terms ...on a graph, chart, diagram, table (e.g. "Label the axes".)
List	Make a list of. (e.g. "List the Technical Actuarial Standards issued by the Financial Reporting Council".)
State	Express the details/facts of... without elaboration. (e.g. "State the principles of investment".)
Understand	To know the meaning of something
Use	Apply the information provided or apply prior learning. To put into service or action. Employ for a given purpose
Write Down	Provide exactly what has been asked for, without explanation or elaboration.

Application (up to Level 4) (Core Units)

Command Verb	Explanation
Calculate	Ascertain or reckon mathematically.
Construct	Produce what has been asked for, with appropriate structure. (e.g. "Construct a table showing...".)
Demonstrate	Prove with certainty or exhibit by practical means.
Derive	Develop a result from first principles (or from the given starting point),
Describe	Express, fully and clearly, the details/facts of. (e.g. "Describe the risks arising" under a specific given scenario.)
Determine	Find the solution by argument or calculation, making clear your reasoning. (e.g. "Determine the type of event that has occurred, based on the data provided".)
Draft	Produce a document in the specified format (e.g. report, letter, etc.)
Explain	Make clear the meaning or purpose or details of, or the justification for.
Express	Write down the result in the specified terms.
Give	Write down what has been asked for, without elaboration. (e.g. "Give an example of...".)
List	Make a list of. (e.g. "List the assumptions/rating factors that would be required to price this product".)
Outline	Describe briefly without elaboration or explanation.
Prepare	Make or get ready for use.
Prove	Demonstrate the truth of what is indicated, through mathematical argument.
Show	1. Demonstrate that the given result is correct. 2. Display the output of a specific part of a computer package item.
Solve	Find a mathematical answer to.
State	Express the details/facts of... without elaboration. (e.g. "State whether the investor should take a long or short position on the option in this situation".)
Verify	Demonstrate to be true.

Higher Order Skills (above Level 4)

Command Verb	Explanation
Analyse	Break down into component parts.
Assess	Judge the effectiveness, implications, relevance, importance, suitability and/or value of.
Comment on	Give brief conclusions on.
Compare	Highlight the similarities and differences between.
Contrast	Highlight the differences between.
Determine	Find the solution by argument or calculation, making clear your reasoning. (e.g. "Determine the most appropriate course of action for the company, within the given constraints".)
Discuss	Write about in some detail, taking into account different issues or points of view.
Estimate	Calculate a result, using judgement to decide on suitable assumptions and/or approximations. (Used when the result is not definitive. Assumptions made should be expressed clearly and intermediate workings should be shown.)
Evaluate	Judge the suitability of something for a given purpose.
Identify	Select after consideration of the possible options or alternatives.
Justify	Provide reasons to support.
Propose	Select and then communicate a solution, action or range of possible solutions/actions. (Justification is not expected unless explicitly asked for, e.g. "with reasons".)
Recommend	Select and then communicate a preferred solution or course of action. (Justification is not expected unless explicitly asked for, e.g. "with reasons".)
Set out	Write down in a structured way.
Suggest	Communicate a range of solutions, actions or reasons without justification. (This is normally used in a situation where there is insufficient information provided to form a definitive recommendation or proposal, e.g. "Suggest possible reasons" or "Suggest possible actions".)

Guidance Notes on the Use of Command Verbs

There should only be one command verb used per question. For example, learners are asked to describe or explain, not describe and explain.

You would not normally expect to see Knowledge and Application verbs used in the higher level modules. If they are to be used, then they will only be as 'a starter before the main meal'. For example, if it is necessary to **describe** (Knowledge) the different Quality Management Systems (QMS) before introducing the concept of **evaluating** (Higher Order) a single (and appropriate) QMS into the learners own organisation, then that is acceptable.

Qualification Aim

The Diploma rewards and acknowledges the completion of core pension technical units that form part of the Advanced Diploma in Retirement Provision. This can be taken as a standalone qualification or as part of the Advanced Diploma.

The aim of the Advanced Diploma is to provide the required professional knowledge, skills and understanding for an individual to undertake, after sufficient experience, a position as a pensions specialist within a self-administered scheme, a third party administrator, a life assurance company or the consulting and advisory services.

Qualification Structure and Assessment

The Diploma and Advanced Diploma are structured as follows:

Examinable Content

The syllabus and the examinations for this qualification are based on the law and practice of the United Kingdom as it existed on 6 April the previous year, unless stated otherwise.

Total Qualification Time (TQT)

In making an estimate we have referenced the approach used by Ofqual (the English qualifications regulator). This is also known as Total Qualification Time (TQT) or Guided Learning Hours. TQT is comprised of:

1. Guided Learning Hours (GLH). This means time spent being taught by an instructor (and not necessarily face to face);
2. Assessment Time, and
3. Study Time. (this means self study/revision/reading)

The hourly allocations are based on evidence we have gathered from users of our qualifications, past experience and benchmarking exercises. The evidence we have gathered indicates that there is considerable variation within the overall TQT estimates as blended approaches are common with differing mixes of Guided Learning and other elements which contribute to TQT. These estimates are reviewed regularly.

PMI Level 4 Diploma in Retirement Provision

In order to be consistent with Ofqual requirements and to provide an estimation of study time we have calculated the following:

Guided learning hours (GLH)	0	(Distance Learning)
Self-study (SS)	600	(Distance Learning/Use of Learning Website)
Formative Assessment (F)	49	(Mock Exams/Assignments/Revision Courses)
Summative Assessment (S)	11	(Online Exams)
Total Assessment Time (TAT)	60	(F+S)
Total Qualification Time	660 Hours (GLH+SS+TAT)	

As GLH, as defined above is not common, we have estimated a total of 0 hours for this component.

Advanced Diploma in Retirement Provision

Guided learning hours (GLH)	0	(Distance Learning)
Self-study (SS)	1200	(Distance Learning/Use of Learning Website)
Formative Assessment (F)	90	(Mock Exams/Assignments/Revision Courses)
Summative Assessment (S)	20	(Online Exams)
Total Assessment Time (TAT)	110	(F+S)
Total Qualification Time	1310 Hours (GLH+SS+TAT)	

Again, as GLH, as defined above is not common, we have estimated a total of 0 hours for this component.

Qualification Level

The Diploma in Retirement Provision has been formally benchmarked against the Regulated Qualification Framework to a **Level 4** qualification.

The Advanced Diploma (Retirement) has been formally benchmarked against the Regulated Qualification Framework to a **Level 6** qualification.
