1. Consultation Overview

Reasons for the Consultation

A consultation was issued on 11 July 2014 setting out proposals for changing the Advanced Diploma. The PMI wants to ensure that the Advanced Diploma continues to meet the objectives of both current and prospective students and employers in terms of structure, syllabus content, study support and methods of assessment. The overall aim of the Advanced Diploma is to provide the required professional knowledge, skills and understanding to enable an individual to undertake a diverse range of roles in the industry. Therefore, the new structure will ensure that a number of specialisms are supported over and above a core knowledge element.

We received a very good response to the consultation and a summary of the feedback and issues raised in relation to specific questions is available from PMI House as a separate document. We would like to thank all those who responded and provided such constructive feedback.

Advanced Diploma Framework from 2016

We are now able to confirm that the 100, 200 and 300 level syllabus that was first examined in April 2006 will be replaced from April 2016. Therefore, the first examinations under the new framework will take place in April 2016.

Transitional Arrangements

Many students will have a number of credits within the current syllabus and indeed previous syllabuses. Therefore, we have devised transitional arrangements for these credits that have been designed to reflect similarity of content and take into account the revisions to the framework. They operate at both the qualification and constituent module/unit level.

The transitional arrangements are outlined in more detail in Section 4 but we would like to reassure students who have already commenced Advanced Diploma examinations that the number of examinations they will be required to complete will not be increased under the new framework.

2. Schedule of Examinations

In view of the revised structure of the Advanced Diploma and feedback received on the frequency of examinations we have reviewed the schedule of examinations. We have also been mindful on the resources available for the provision of examination and study materials. Our long term aim will be to offer all units twice yearly, subject to demand and available resources but this will not be possible from 2016.

The following table summarises the Advanced Diploma Framework from April 2016, the examination formats and outlines the examination frequency:

Post 2016 Framework		Completion Criteria	Examination Format	Examination Session/ Frequency	
Core Units	Core Unit 1A Understanding Retirement Provision (UK)	Either Core Unit 1A or Core Unit 1B must be passed	2 hour multiple choice questions and short answers	Twice a year	
	Core Unit 1B Foundation in International Employee Benefits			Once a year: October	
	Core Unit 2 Regulation of Retirement Provision	Core units 2, 3 and 4 are compulsory		Twice a year	
	Core Unit 3 Running a Workplace Pension Scheme				
	Core Unit 4 Financing and Investing for Retirement Provision				
Tier 1 Specialist Options	Defined Benefit	At least one Tier 1 option must be passed	3 hour written examination		
	Defined Contribution				
Tier 2 Specialist Options	Reward and Retirement Provision	If one Tier 1 option passed then two Tier 2 options must be passed. If both Tier 1 options passed then one Tier 2 option must be passed		Once a year: April	
	Taxation, Retail Investment and Pensions			Once a year: October	
	Retail Advice and Regulation			Once a year: April	
	Managing International Employee Benefits		Once a year: April		
Compulsory Unit	Professionalism and Governance	Compulsory for Advanced Diploma	TBC	Twice a year	

The content and coverage of each unit has been reviewed and units rebranded as appropriate. The latest outline syllabuses for each unit are provided in Appendix 2 but should be considered indicative at this stage as we anticipate some minor changes as they are

reviewed and updated in line with legislative developments, consultation with our study support partners and relevant regulators.

3. Diploma Level Qualifications from 2016

The Advanced Diploma framework includes several Diploma level qualifications that can be obtained en route to the Advanced Diploma. It has also been a requirement to complete the Retirement Provision Certificate prior to completing the Advanced Diploma. As proposed, this requirement will be removed from 2016 and will be replaced by the compulsory core units.

The new framework will continue to include several Diploma level qualifications alongside the Advanced Diploma.

The table below summarises the other Diploma level qualifications within the Advanced Diploma framework and the changes to them from 2016. Further details on these Diplomas, how they are impacted by transitional arrangements and how they link to PMI membership are contained later in this document.

The above arrangements will expire at the end of 2019.

Transitional Arrangements – Dealing with Credit

The current 100, 200 and 300 level syllabus works on a credit based system. 101 gave 60 credits, 200 level examinations gave 100 credits and 300 level credits gave 110 credits. This system was designed to offer flexibility in the choice of options available and only minimal additional requirements were imposed:

- (1) The completion of RPC was essential.
- (2) A minimum of 3 300 level modules were required.

At present 850 credits are required to complete the Advanced Diploma. Therefore, and taking into account the above rules, a typical student sitting RPC, 5 200 level modules and 3 300 level modules would obtain 890 credits. It was announced in 2012 that this total would increase to 890 credits from 2019.

In addition to credits from Advanced Diploma modules it was also possible to obtain credits for other PMI qualifications and also from the Accreditation of Prior Learning (APL) system that recognises other non PMI qualifications. The APL system either awarded credit against a specific Module, e.g. 201, or non module specific credit that could be applied against the 850 total required.

The Advanced Diploma from 2016 will not be credit based. The completion criteria will be defined and only units from within the Advanced Diploma will count. The system of Accreditation of Prior Learning will be revised to operate solely on a specific unit credit basis.

In order to allow for a suitable transition for those who have already embarked on Advanced Diploma studies with credits from other PMI qualifications the following arrangements will be in place:

- (1) All current Students and those who register before the end of 2015, who have completed a non Advanced Diploma related PMI qualification will be able to claim credit according to the below tables.
- (2) All current students and those who register before the end of 2015 who have been awarded non module specific credit on the basis of relevant non PMI qualifications will be able to obtain credit according to the below tables. Those who have been awarded module specific credit will be able to obtain credit in accordance with the standard transitional arrangements.
- (3) Exceptions to the above, or additional requirements, are shown in the relevant table.
- (4) The above arrangements will expire at the end of 2019.

Table A overleaf outlines the application of credit in the 2016 Onwards Syllabus:

Table A

Qualification Name	2016 onward Syllabus No. of credits	Notes/Conditions
Qualification in Pensions Administration "QPA" (not complete)	Will depend on individual QPA units passed – up to 280 credits	Registered prior to 2015
Diploma in Pension Calculations "DPC" (not complete)	Will depend on individual DPC units passed – up to 220 credits	Registered prior to 2015
QPA (complete)	280 credits	
DPC (complete)	220 credits	
Certificate in Pension Calculations (QCF) "CPC" (complete)	100 credits	
Certificate in Pensions Administration (QCF) "CPA" (complete)	100 credits	
Diploma in Pensions Administration (QCF) "DPA" (complete)	200 credits	

1. No credits will be applied in respect of incomplete qualifications (CPC, CPA and DPA) and any other PMI qualifications not listed above.
2. Maximum one qualification to count towards 2016 onward Syllabus no. of credits.
3. **No credits will be applied in respect of any qualifications not completed by the end of 2019.**

Table B below indicates the application of credits from the 100, 200 and 300 level syllabus. NB. Candidates should calculate credit according to Table A (noting the restriction that a maximum of one qualification is to count) and 100, 200 and 300 syllabus rules.

Table B

Number of 2016 onward Syllabus Credits	2016 onward syllabus Unit Specific Credit
Up to 100	CU1
110-220	CU1 & CU2
230 - 300	CU1, CU2 & CU3
310 +	CU1-CU4

All students affected by the credit transitional arrangements should contact qualifications@pensions-pmi.org.uk for a personal transition statement.

The above arrangements will expire at the end of 2019.

5. Next steps

- The new Advanced Diploma framework will be launched from April 2016.
- PMI House is liaising with Study Support Partners to ensure that Study material is available from September 2015.

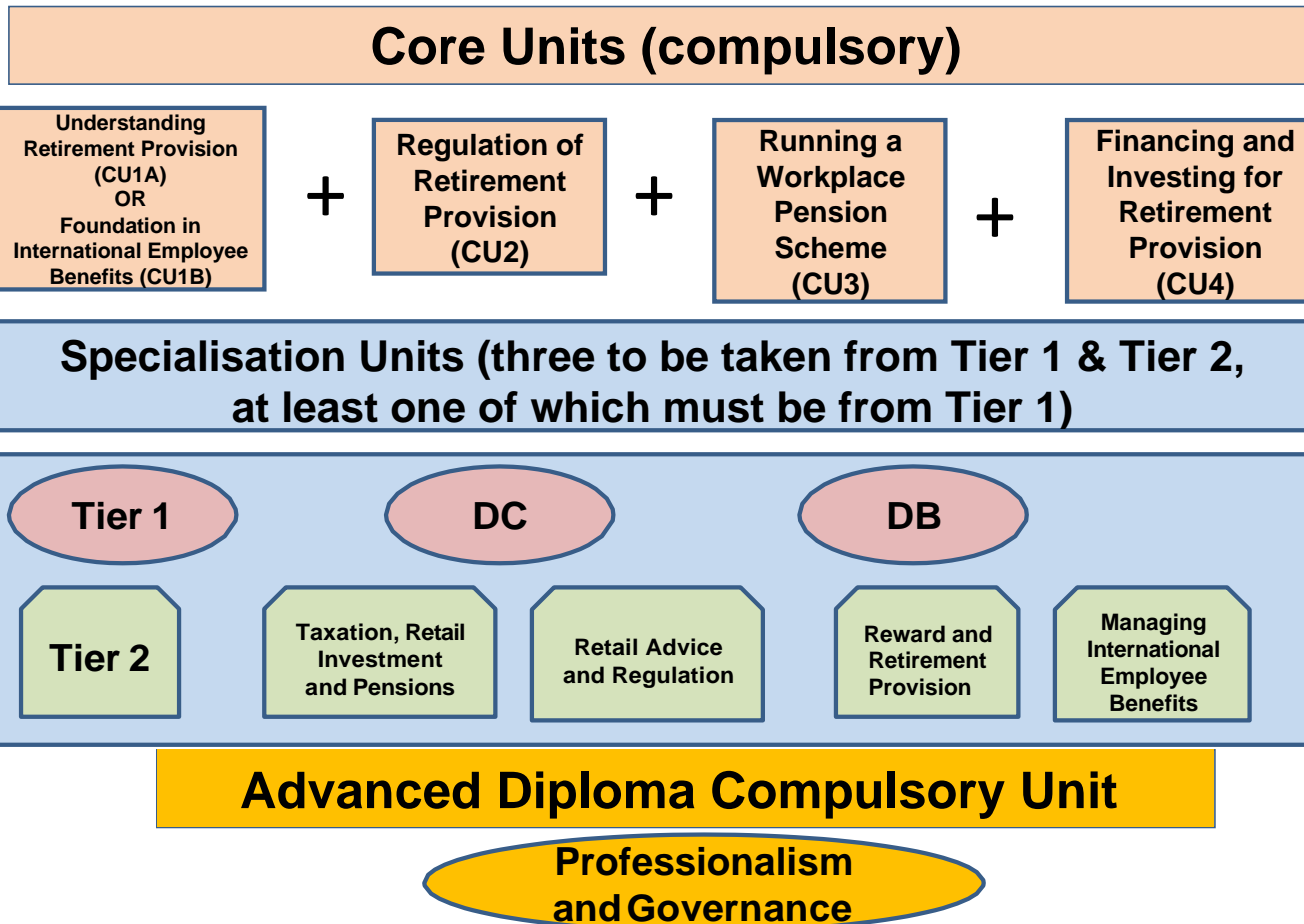

Any comments or queries at this stage can be directed to pmiqualifications@pensions-pmi.org.uk
